

GET KIDS INTO SURVEY®

with Geo Ginger & Professor Topo

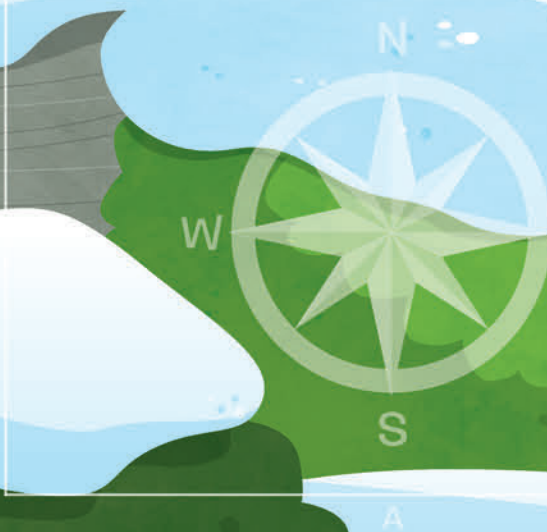

DID YOU KNOW YOU CAN TAKE BILLIONS OF MEASUREMENTS USING A LASER SCANNER? IT ALSO TAKES PHOTOGRAPHS AND TOGETHER WITH THE MEASUREMENTS YOU CAN MAKE A 3D MODEL ON YOUR COMPUTER.

1. What does a Crime Scene Investigator do?
2. What surveying techniques are used in Crime Scene Investigation?
3. How many pieces of surveying equipment can you spot? (Hint: They can be found on top of tripods, carried in a backpack, attached to a vehicle/drone or helicopter.)
4. Why do you think you need to measure and take photos of a crime scene?
5. Find Piggie Wiggle the TopoDOT dog, what has she found? Could it be a piece of evidence?
6. Who killed the yeti? Can you guess? (Hint: Look for some forensic evidence - bloody footprints, a mince pie trail or even some toilet roll)
7. What are the yellow numbered markers next to the yeti?
8. Why are the crime scene investigators putting tape around the crime scene?
9. Why are the crime scene investigators wearing masks?
10. Why do you think the green LSF land rover crashed?

Find the answers at www.getkidsintosurvey.com

FORENSIC EVIDENCE CAN BE ITEMS COLLECTED OR INFORMATION GATHERED AT A CRIME SCENE. THERE ARE MANY TYPES OF FORENSIC EVIDENCE THAT CAN BE FOUND TO HELP SOLVE CRIMES.

Our awesome sponsors, helping us to build #GetKidsintoSurvey Globally!

Elaine's mission! To raise standards within the geospatial industry globally by giving surveyors through to manufacturers a dedicated resource for business, sales, marketing and strategic communications and to encourage, excite and educate the next generation of surveyors.
