

GET KIDS INTO SURVEY®

with Geo Ginger & Professor Topo

SURVEYORS WHO WORK IN FORESTRY ARE KNOWN AS FORESTERS. THEY HELP MANAGE THE FOREST BY FINDING BOUNDARIES, COUNTING TREES AND MAINTAIN THE FOREST ECOSYSTEM.

1. What does Bengal Cat have in his hand and what is he doing?
2. Why do you think it would be important to mark the line between your parents land and your neighbours land?
3. Can you find the woman in a turquoise jacket looking through a yellow laser rangefinder? What do you think she is doing and why?
4. Spot the orange flags. What do you think they are for?
5. Find the white drone. How can drones help us create a map?
6. Find Captain Alice. What is she doing and why?
7. Why is it important to know exact locations of where certain things are?
8. Find the boat. Why is it important to measure the depth of the river?
9. Using the compass, which direction is the boat facing? Why is this important for map reading?
10. Find the surveyor measuring the girth of a tree. Why is she doing this?
11. Find bigfoot. What is he looking at and what is the surveyor doing?
12. Find the orange horse standing next to the GPS antenna? Why is he not under any trees?

BONUS QUESTION! Find the racoon, what is he holding?
Find the answers at www.getkidsintosurvey.com

WE HAVE TO TAKE CARE OF OUR FORESTS. TREES ABSORB CARBON DIOXIDE WHICH TURN THEM INTO WOOD. PLANTING TREES HELPS OUR ECOSYSTEM BY PROVIDING SHELTER FOR WILDLIFE AND RESOURCES LIKE WOOD FOR FUEL, PAPER AND BUILDING.
DID YOU KNOW WHEN YOU BREATHE, YOU ARE FEEDING A TREE?
